### Consent Form for ResurFX™ Treatments

*Please read each statement.*

- I authorize my physician to perform fractional non-ablative laser resurfacing on my skin and I agree to review the laser pre-treatment compliance checklist below along with my physician and bring accurate and updated data, to the best of my knowledge.
- Pre and post-care instructions have been discussed and are completely clear to me.
- I understand there is a rare possibility of side effects or serious complications post treatment, including pigment changes and scarring. I am aware that careful adherence to all advised instructions will help reduce this possibility.
- I understand the below list of short-term effects and skin responses and agree to follow matching guidelines:
  - Discomfort. During the procedure, I might experience a hot needle pricking sensation which degree will vary per my skin condition and area sensitivity. A mild “sun-burn” sensation may follow for typically up to one (1) hour and will be reduced with application of cooling and soothing creams.
  - Reddening and swelling. Severity and duration depend on the intensity of the treatment and the sensitivity of the area to be treated. These phenomena may be reduced with application of cooling and/or anti-inflammatory creams.
  - Xerosis and pruritus. Within the first few days after treatment, my skin may feel itchy, tight and dry. Regular application of moisturizers helps reducing this sensation.
  - “Bronzed” appearance. Within the first few days after treatment, I may develop a pinkish and/or colored tone and discrete dry flaking. It is important I do not rub or pick my skin which may otherwise lead to scarring. A broad spectrum (UVA/UVB) sunscreen SPF 30 or greater should be applied to the area(s) to be treated whenever exposed to the sun.
- I understand that sun exposure or tanning of any sort is not aligned with the pre and/or post-care instructions and may increase the chance for complications.
- The procedure as well as potential benefits and risks have been thoroughly explained to me and I have had all my related questions answered.
- I understand that results may vary with each individual and acknowledge that it is impossible to predict how I will respond to the treatment and how many sessions will be required for the expected level of improvement.
- I consent to photographs being taken for the purpose of documenting my progress and response to the treatment and these will be kept solely in my medical record.
- I consent to photographs being used for medical education or publication with applied discretion and not revealing my identity.

Skin type: I <input type="checkbox"/> II <input type="checkbox"/> III <input type="checkbox"/> IV <input type="checkbox"/> V <input type="checkbox"/> VI <input type="checkbox"/>		
Recent exposure to sun in the 4-6 weeks pre-op plan, remaining suntan or artificially toned skin	NO	YES
Photosensitivity or use of photosensitive (to 1565nm) medication and/or herbal preparations	NO	YES: what/when? .....
